WARWICK PLAYGROUND DREAMS

many hands... one community
project background & mission

MISSION
Warwick Playground Dreams is a non-profit organization comprised of dedicated parents and community members. Our mission is to work together to realize our dreams, and those of our children, for a new playground(s) in the Town of Warwick. We set out to accomplish this mission through fundraising efforts, community partnerships, and use of available resources. The playground will be designed to ensure that children of all abilities will have access to playground components that will allow them to play together in a safe and inclusive environment. It will foster children’s creative spirit and encourage free play that is necessary for both physical and cognitive development. The end result will be a community space that Warwick can be proud of and all families can enjoy for years to come. Children of differing abilities will be able to enjoy the health benefits of active play as well as gain opportunities to interact with other children and make friends, developing concepts related to tolerance, diversity and acceptance.

DESIGN DAY
Working together with the Village of Warwick, local schools throughout the town, and the playground designers from Play By Design, we reached out in April 2017 to the children their parents and any other interested community members with the hopes of creating a playground that the whole community would love - a playground that would reflect the culture and history of the town of Warwick, its hamlets and villages. Over 1,800 children shared their vision in drawings, essays, and 3-D models.

PARTNERSHIP
The seeds of this community project were planted at a meeting between Mayor Michael Newhard and parents back in August 2016 to discuss the future of the playground at Stanley-Deming Park. In an effort to refurbish the playground more quickly, some of those parents present created this non-profit to raise funds and organize the great effort involved in such a project. Since then, our committee members have worked closely with the Mayor and Village Board Trustees to develop this project. After numerous work sessions and an open community feedback session, the Village accepted an Offer of Dedication from Warwick Playground Dreams, outlining the details of this collaboration. Warwick Playground Dreams is so grateful for the support and partnership with the Village of Warwick.

BUILD WEEK
Build Week will bring parents, grandparents, neighbors and other members of the community together to build with their own hands a special place in the heart of our town where children can chase their dreams as well as their friends. Build week will take place over six or seven consecutive days, with the help of 200 volunteers a day.

WHO WILL BENEFIT
According to the 2010 Census, there were 8,219 residents in the town of Warwick between the ages of 0-19. As we have worked on the playground design with Play By Design, we have taken into consideration the needs of children of all ages and abilities, with age-appropriate equipment for the infants and toddlers as well as more challenging equipment to keep older children engaged in social and physical play. We have also taken into account the needs of children with visual and hearing impairments, sensory processing as well as ambulation issues. According to Katherine Krieger of the Muscular Dystrophy Association in New Jersey, there are over 500 children in Orange County and northern New Jersey with ambulation issues in easy driving range of the playground.

With 24 ADA-accessible features and challenging equipment for older children, our inclusive playground will foster children’s creative spirit and encourage free play that is necessary for physical, cognitive and social development. “Most of the diseases we cover cause ambulation issues and patients encounter accessibility challenges,” Ms. Krieger says. “A playground that is accessible would not only be of value to our pediatric patients who need accommodations but also to our adult population who might have lost functional mobility and still want to take their children to parks and be able to enjoy in this type of recreation.

2-5 YEAR OLD PLAY AREA
1. Barn $20,000
2. Tractor * $15,000
3. Suspension Bridge $3,500
4. Hops $2,500
5. Facades (4) * $2,500 each
6. Tea Cup Spinner * $2,000
7. Companion Swing $2,000
8. Bench with Back $1,500
9. 4' Straight Slide $1,500
10. Tot Swings (2) $1,500
11. Tunnel $1,000
12. 1/2 Gear Shift Panel $800
13. 4' Double Bedway Slide $800
14. Arch Rock Climb $600
15. Wave Bridge $600
16. Step Ladder (not shown) $300
17. Phones (2) (not shown) $300 each
18. Transfer Station (1) * $200

5-12 YEAR OLD PLAY AREA
19. Castle w/ Arch Entry* $30,000
20. Fort * $20,000
21. Stainless Steel Turn Slide ** $20,000
22. Onion House (Quiet Area) *** $15,000
23. Apple Tree House * $12,500
24. Pull Ramp * $7,500
25. Apple Rock Climbing Wall $7,500
26. Maze $6,500
27. Team Swing * $5,000
28. Roller Coaster Bridge * $5,000
29. 6' Closed Curly Slide $5,000
30. Accessible Game Tables * $5,000
31. Animal Scavenger Hunt * $5,000
32. 6' Fast Slide $3,600
33. Octagonal Shaded Bench $3,000
34. Ramps (7) * $2,500 each
35. Spinning Monkey Bars $2,000
36. Bench (5) $1,500 each
37. Swings (2) $1,500 each
38. Ninja Posts $1,500
39. 4' Wide Slide $1,500
40. Balance Pods $1,000
41. Wiggle Beam $1,000
42. Deep Rung Arch $1,000
43. Corkscrew Pole $1,000
44. Up/Down Horizontal Ladder $1,000
45. Sensory Panel (3) $800-$1,500 each
46. High Monkey Bars $800
47. Low Monkey Bars * $800
48. High Trapeze Rings $800
49. Low Trapeze Rings * $800
48. Arch Rock Climb $600
49. Ladder (not shown) $500
50. Racing Ropes $500
51. Fire Pole $400
52. Phone (2) (not shown) $300 each
53. High Gym Bar $300
54. High Gym Bar * $300
55. Transfer Station (7) * $200 each
56. New Trees (not shown) TBD
56. Musical Instruments * (not shown) TBD

ZIP LINES
57. Double Zip Lines * $30,000

BONUS COMPONENTS
58. Apollo Mini Spinner * $20,000
59. Ropes Course $18,000
60. Accessible Merry-go-round * $15,000
61. Sensory Garden *** TBD

Installment payments welcomed until February 2019
* ADA Accessible Component
** Beneficial to Children with Cochlear Implants
*** Beneficial to Children with Sensory Processing Needs
THE CASTLE
What child doesn’t dream about playing in a castle? The castle is incorporated into playground’s main structure and will feature 6-foot-wide ramps (wide enough for 2 wheelchairs side-by-side). The ramps lead through the arched grand entry and beneath the playground deck, so children can choose to explore either the “dungeons” or “grand halls” of the castle. Knights and adventurers can race up the rainbow-colored maze of stairs winding up into the castle turrets were they will find slides to make their quick escape from “dragons” or “jousting opponents”.
$30,000

DUAL ZIP LINE
A zip line was one of the most requested items by the children. We want to make it double the fun! Our dual zip line will have two tracks with one disc seat and one ADA-accessible bucket seat. It will enable children who need additional support to fly 50 feet through the air alongside their siblings and friends, allowing everyone to experience play in a whole new way!
$30,000

BARN
The barn with its whimsical architecture and decor, the barn is an imaginative play structure for little ones to explore as well as a reflection of Warwick’s culture and heritage as an agricultural community.
$20,000
THE FORT
One of our goals is to give the children many options for imaginative play. Whether made out of blankets or lumber, children love playing in forts! Thanks to Play By Design’s whimsical design, this accessible fort will make a fun starting point for adventures.
$20,000

THE CLIMBING NET SPINNER
The climbing net spinner allows children to climb like “Spiderman” across steel-reinforced soft nylon ropes while rotating at a safe, controlled speed. The solid-deck floor provides an inclusive and safe place for children of all ages and abilities to join in the exhilarating fun, adding another dimension of imaginative, social and physical play.
$20,000

STAINLESS STEEL SLIDE
Traditional plastic slides generate static electricity which can negatively impact cochlear implants. A child with profound hearing loss/deafness that depends on cochlear implants to hear, can now slide with their friends without fear of an electrostatic discharge. They also can experience the benefits that slides provide to the vestibular system which helps children develop a sense of balance.
$20,000
THE ROPE COURSE
In our mission to create a playground for children of all ages, we are excited to include a ropes course for older children to test climbing skills and improve coordination, strength, physical development while creating a vehicle for imaginative play as they climb to the top of the jungle.
$18,000

THE ONION HOUSE
The onion honors the legacy of our Black Dirt farms. The whimsical onion-shaped structure situated on the edge of the play area creates a quiet space for kids to read, rest or engage in creative and unstructured play. It also provides a much-needed space for children with neurological and sensory processing challenges.
$15,000

THE TRACTOR
The tractor is wheelchair accessible and gives children of all abilities the chance to use their imagination to plow the fields or harvest the crops from the farmland they pass in our community every day.
$15,000
INCLUSIVE ORBIT MERRY-GO-ROUND
Placed at ground level and with space for wheelchairs, our merry-go-round allows all children to benefit from improved balance, spatial awareness, teamwork and the excitement of spinning with friends!
$15,000

APPLE TREE HOUSE
The orchards of Warwick play such an enormous role in defining our culture and creating memories for generations of children and families. As a tribute to these farms, we've created a fun and accessible tree house nestled into an apple tree. Children can climb the arch, the rock-climbing wall, spiral pole or enter from the ramp and create new memories in unique Apple Tree House.
$12,500

APPLE ROCK CLIMBING WALL
The children told us repeatedly that they love to climb! Our rock-climbing wall will give them a chance to challenge themselves as they scale a beautiful mural painted by a local artist leading to the Apple Tree House.
$7,500
MAZE OF STAIRS
Once the children pass under the castle arch, they will be able to choose which way they want to clamber up into the castle. A maze of rainbow-colored stairs will lead up either side, giving the children many options to choose their own adventure or make their escape in a game of tag.
$6,500

THE PULL RAMP (2)
The pull ramp is a fun climbing obstacle. It helps individuals strengthen their upper body and core muscles.
$7,500 each

ANIMAL SCAVENGER HUNT
Painted animals are woven into the playground equipment and hidden throughout the park to create a magical scavenger hunt for children to explore together. The scavenger hunt will be named after Frank Forester and include animals indigenous to our region. An education board will be positioned near the castle to teach children about the animals in the scavenger hunt and a bit about Frank Forester and his book "The Warwick Woodlands."
$5,000
component details

FACADES (4)
A charming tribute to our three villages in town as well as the hamlet of Pine Island. Our storefronts will be decorated by local artists to reflect Warwick’s heritage and culture across the villages and hamlet. They will be accessible from both inside the Tot Lot as well as from one of the flat pathways outside of it.
$2500 each

TOT LOT OBSTACLE COURSE
The Tot Lot’s Obstacle Course offers little ones fun-filled, safe challenges to help develop their balance and muscular strength and learn how their bodies work and move. The course features an arched rock climber, bouncy bridge, hops, tunnel, and wave bridge.

SUSPENSION BRIDGE $3500
HOPS $2500
TUNNEL $1000
ARCH ROCK CLIMB $600
WAVE BRIDGE $600
SWINGS
The Swings are one of the earliest components of the childhood playground. Swings not only help develop core muscular strength, they also stimulate our bodies’ sensory systems, namely our vestibular and proprioceptive systems. Most of us have countless childhood memories on swings. They are simultaneously calming and exhilarating and let’s not forget really, really fun!

$1,500 each

COMPANION / EXPRESSION SWING
The Expression Swing is a fairly new piece of equipment that allows a caregiver or sibling to sit face-to-face across from a small child while they swing. It creates an opportunity for a tunement play which is important in the bonding process. It helps children build and maintain their relationships with others. This is a particularly valuable piece of equipment for young children with limited social skills.

$2,000

TEAM DISH SWING
An adaptive swing that can accommodate multiple children as well as those with little or no trunk/motor control. It is great for imaginative and social play as the kids soar into the sky on their flying saucer!

$5,000
BIG KIDS OBSTACLE COURSE

Another popular request from the children was an obstacle course. In addition to balance pods, a wiggle beam, and high and low gym bars, our obstacle course will also feature different types of monkey bars for our “ninja warriors” to traverse (ex: spinning, straight, trapeze ring, an up-down horizontal ladder). Additionally, the course will feature low monkey bars and trapeze rings to give those in a wheelchair an opportunity to get in on the fun and exercise their upper body strength.

Play is an essential part of childhood development. It provides opportunities for physical, cognitive, social-emotional, communicative and sensory development. When children play, they put their ideas into motion. Play provides the opportunity to practice, experiment, and experience ways children can interact with others and their environment. The role of play is so vital to a child’s development that it has been recognized by the United Nations High Commission for Human Rights as a right of every child.

With over 24 ADA-accessible features, our inclusive playground has been designed to ensure that children of all abilities will have access to a fun, challenging, and safe environment. Children of differing abilities will be able to enjoy the health benefits of active play as well as gain opportunities to interact with other children and make friends, increasing understanding, confidence, and social skills.

Warwick Playground Dreams has featured just a few examples of the many children, from our community, who would directly benefit from the new playground through colorful storyboards.

Overall Project Budget: $350,000
Funds Raised to Date: $70,000.00

(of that, from the following past fundraising events):
Design Day $4,500.00
Summerfest $16,165.00
Ninjago Premiere $6,188.00
Trunk or Treat $1,790.00
Read-a-thon $9,183.00
Sip & Paint $1,530.00
Moonlit Masquerade $3,979.00
Tricky Tray $7,082.00

We are offering a variety of sponsorship opportunities to meet this project’s budget. While we do not expect to reach 100% maximum funding on each sponsor opportunity, here are some of the potential maximum income totals:

Fence Picket sponsorships $32,000.00
Family Brick sponsorships $20,000.00
Business Brick sponsorships $50,000.00
Playground Component sponsorships $351,500.00
Upcoming Fundraising Events $25,000.00

Grants: Warwick Playground Dreams’ Grants team is actively applying for qualified grants.
Warwick Playground Dreams invites everyone to consider leaving a legacy for children of this generation and those to come. Imagine leaving your fondest childhood memory on a paving stone that a child of the community can read twenty or thirty years from now.

Your grandchildren or great-grandchildren could read about your 5-year-old self, swinging in the breeze, reaching up to the clouds. An impressionable youth could contemplate a quote that has been embedded in your mind and helped you through the hardest of times. Your words will be etched in time, adding your legacy to our community playground, by your donation of a paver or picket, helping to build our children’s future.
**Greer**

Greer, Age 4, has ASD (autism spectrum disorder) and dreams of an apollo spinner!

"Greer' will love the spinner because she is able to climb with other peers and get a firm grasp on the ropes. She loves to spin around so this piece of equipment would marry her two favorite activities. It would provide her with an opportunity to get more input on her body, organizing her system so she can concentrate on interacting with the other kids climbing with her."

This playground is so important to families like ours who otherwise couldn't enjoy a simple outing to the park. When our children were diagnosed, so was our family, and our "normal" wouldn't ever be the same. Because our needs are special it is so hard to find the correct fit of equipment, environment and safety so that we can let them play freely. I am so grateful for all the thoughtfulness and attention to detail that will enable our kids to enjoy the outdoors with us, now a "normal" activity we can add back into our family life.

Donate today and turn her DREAM to reality!

---

**Alex & Derek**

Alex, age 6, and Derek age 2 w/Spinal Muscular Atrophy dream of a merry-go-round they can ride on together!

"I love that a merry-go-round spins and can go really fast. I like that I can jump on and off. It would be special because I could go on with my brother!" - Alex

"Derek can only move his hands, eyes and head a little bit, but he loves movement! He loves anything fast and daring! He will be thrilled to spin and spin! He adores his brother Alex and shouts his name all the time. Unfotunately, with SMA they can't do a lot together. He will be thrilled to be able to join Alex for this ride!"
Aiden, age 10 with 1p36 Deletion Syndrome - dreams to have a Jennswing!

"The Jennswing will let Aiden swing high like his two brothers. Aiden does not have the balance to swing without extra support. Having a Jennswing will give him the support he needs."
- Karen (mom)

The seat is a partially-reclined, body-embracing style, complete with an adjustable safety harness and provides a safe, highly comfortable, fun ride on the swings for children with special needs. The larger JennSwing® will accommodate children up to 125 lbs.

Aubrey, Age 4, dreams of treehouse.

"I want to play in the tree house because I can pretend to be a fairy living in the forest!"

The treehouse will be an apple tree in honor of Warwick’s apple orchards and will create endless fun as kids climb up, play inside and let their imaginations run wild!!

Donate today and turn her DREAM to reality!

warwickplaygrounddreams.org
facebook.com/warwickplaygrounddreams
Gianna L.

Gianna, Age 7 - dreams of a princess castle.

"The playground is important because it's going to be a playground that every child can love and play on."
- Gianna

The castle entrance will provide hours of imaginative play, and also be reflective of the castle in the crest of Warwick, NY. 
est. cost of castle $10,000

Anthony & Brendan

Anthon, 6, & Brendan, 3 - dream of a zipline!

"I am excited about the new playground, I can't wait to test out the new zip lines. The new playground will be safe and fun for everyone!"
- Anthony

The zip line is even fun for the really big kids!

"I like to climb, I like the monkey bars and I like to run around and play with other kids."
- Brendan

Revitalization of Stanley-Deming Playground

A committee made up of local parents and community members have created Warwick Playground Dreams, with the goal of reviving the aging playground in Stony Creek Park in Warwick. Warwick Playground Dreams will work together with the Village of Warwick and local schools, as well as Play By Design, a playground design firm specializing in community-built, to bring a community-designed and built ADA-accessible playground to Warwick.

Warwick Playground Dreams is proud and extremely thankful to have The Children’s Foundation of Orange and Sullivan CFTOS as fiscal sponsors for our project. CFTOS Warwick people who care about causes that matter!

The overall goal is to raise $200,000 for the accessible playground and a signed pad. The dedication gifts can be made online, with individual and corporate sponsorships also being sought. Funds are needed for guilt parties, improved playground and individual playground equipment pieces. Community members are encouraged to support the project through their time, funds, resources, and talent to help make this dream a reality.

For more information visit www.WarwickPlaygroundDreams.org or send an email to warwickplaygrounddreams@gmail.com

New Playground Planned for Stanley-Deming Park

Warwick Playground Dreams Presents Play for the Park Summerfest

Play for the Park Summerfest raises more than $35,000

‘Summerfest’ Begins to Build Playground Dreams

Warwick Playground Dreams to host Lego Night on Sept. 22 at the drive-in

Making Playground Dreams a Reality

On this page:

- Play for the Park Summerfest Raises $35,000
- ‘Summerfest’ Begins to Build Playground Dreams
- Warwick Playground Dreams to host Lego Night on Sept. 22 at the drive-in

These three articles discuss the efforts of Warwick Playground Dreams to revitalize the Stanley-Deming Playground. The committee is looking to raise funds and seek community support to build an accessible playground that meets the needs of all park visitors.
Our fiscal sponsor – the Community Foundation of Orange and Sullivan

Warwick Playground Dreams is a component fund of our fiscal sponsor the Community Foundation of Orange and Sullivan. All donations are deposited with Community Foundation of Orange and Sullivan who carefully ensures that those funds are only used to benefit the playground project. The Community Foundation of Orange and Sullivan is a 501(c)3 organization. Therefore, your donation will be tax-deductible.

Based in Montgomery, NY, the Community Foundation of Orange and Sullivan “connects people who care with causes that matter.” Established in 1999, the Foundation helps individuals, businesses and organizations establish charitable funds that award grants and scholarships, for good, for ever.

Since inception, the Foundation, together with its donors and fund representatives, has awarded more than $11 million in grants and scholarships. The Community Foundation of Orange and Sullivan currently administers about 260 charitable and project funds that support animal welfare, arts and culture, education, the environment, health and human services, recreation and youth. The Foundation is proud to serve as fiscal sponsor for the Warwick Playground Dreams project.
We are very excited to be working with Play By Design. Out of Ithaca, NY, they produce custom designed play structures that are safe, affordable and all-inclusive. They have a passion for design, quality construction, and the community build – a proud tradition in which playground designers and building consultants work alongside community volunteers to produce play structures.

Their co-founders Dave Iannello and Lee Archin are talented designers, builders, artists, and community organizers with combined careers spanning over 50 years in the world of community built playgrounds. They are professionals who work with groups of community volunteers to produce custom designed play structures and environments for children. Additionally, they specialize in the design and custom creation of site specific one of a kind play structures for residences, learning facilities, and public spaces.

All of their structures are built in compliance with current ASTM International standards, Consumer Product Safety Commission (CPSC) guidelines, and the Americans with Disabilities Act Accessibility Guidelines, which will soon be released. Their designers and builders are National Recreation and Parks Association (NRPA) Certified Playground Safety Inspectors (see nrpa.org). Safety surfacing meets ASTM guidelines for impact attenuation and accessibility.
